- † 200 Denier Polyester, looped-end construction that is washable and incinerable

CE Roll-O-Matic 120844

Ergonomic Stainless Sponge Mop Handles have the same features as the original plus angled head allows full use of sponge mop head, and results in an ergonomically friendly movement for all surfaces. White handle and rollers are made specifically for Autoclaving and Cleanroom environments. The handle is manufactured of a lighter high strength stainless.

EasySat™ Bucketless Floor Mop BLMOP

Simple to use and contains no complex moving parts. Designed specifically for cleanroom use this mopping system is fully autoclavable. The system utilizes the laser-cut sealed-edge VertiKlean mop head material. Solution tank holds up to 52 ounces; snug-fitting lid minimizes exposure to chemicals. Lightweight; mop weighs 7lbs with a full tank. Trigger flow controlled mechanism releases cleaning solution on demand.

Contec VertiKlean™ Mopping System VKMOP

- † Developed for wet cleaning of walls and ceilings in controlled environments
- † Compatible with a wide range of chemicals - ideal for application of disinfectants and cleaning solvents including bleach, phenol, IPA, and quaternary disinfectants
- † Single-use VertiKlean mopheads are made of polyester foam laminated to knitted polyester fabric for high sorbency
