

Even The Tightest Areas Can Be “HEPA Clean”

This backpack vacuum features a HEPA filter to capture particles down to 0.3 microns.

- > Vacuum Includes Hose, Wand and Tools
- > ULPA Filter Available

BPV-100H – Compact

When you have a difficult job to do and not much room to do it the BPV-100H makes any hard to reach job easy. Totally self contained, light and comfortable, this is high efficiency cleaning for those tight out of the way places. Tiny nuisance particles can't escape from the large capacity HEPA filter while the bigger stuff stays trapped inside the paper collection bag. An integrated tool belt will save you time by eliminating those wasted trips looking for the right attachment.

FEATURES

- > Large HEPA filter
- > Paper filter collection bag
- > Heavy-duty motor
- > High-impact, molded plastic body
- > Tool belt
- > Multiple cleaning tools
