

CLEANMAX™ APPAREL FOR EVERY COMPOUNDING APPLICATION

Ensure the quality of your formulations by reducing the risk of contamination with CleanMax™, which provides 99.999% bacterial and particulate filtration efficiency, fluid resistance material, bound seams to protect from breakthrough and strikethrough, and individually wrapped packages for cleaner handling.

Lakeland CleanMax™ garments provide the comfort, quality, and protection you expect, including:

- IEST Category I Particle Cleanliness
- Open Fold for Easier Donning
- Sterility Assurance Level of 10⁻⁶
- USP <795> and US <P797> Compliance
- ASTM D6978 tested and approved for USP <800> applications when worn in conjunction with an approved chemo-gown
