

Nonwoven Wipers

Ideal for applications where high sorbency and low extractables are important. Excellent for picking up aqueous spills. Suitable for cleaning precision components and apparatus.

Fabricated from a polyester/woodpulp blend, 45% Polyester and 55% woodpulp. This material combines the high sorbency of natural fibers with the cleanliness of synthetic fibers. Low particle counts, low extractable levels and solvent compatibility, this wiper is ideal for general wiping and spill control in controlled environments.

Typically, suitable for class 10,000 use. In some cases, this wiper may be used in a class 100 environment. The data presented below may be used as a guideline for a particular use or uses.

- Nonwoven, spunlaced construction for excellent strength
- Compatible with most solvents
- Autoclavable

Standard sizes from 4" x 4" to 18" x 18"

Available in White and Blue

Custom sizes and rolled goods also available.

STYLE	SIZE	PACK
CR7-300	7" X 7"	300/pack
CR9-150	9" X 9"	150/pack
CR9-300	9" X 9"	300/pack
CR12-150	12" X 12"	150/pack
CR6-300	6" X 6"	300/pack
CR4-1200	4" X 4"	1200/pack
CR18-150	18" X 18"	150/pack

Nonwoven wipers – economical low-cost
