

POLYTACK ENTRANCE MAT – K SERIES

- Made from incinerable polyethylene film, removes foot borne particulate before entering the cleanroom
- Seamless one-piece construction
- Numbered tabs provide easy identification and sheet separation
- Easy mobility for carts and wheeled machinery
- Polyethylene film contains a special anti-microbial agent providing long-lasting protection against bacterial growth

Colors: Blue, White,

FILM

.0015" virgin polyethylene sheet coated with a non-transferable adhesive. Low density, low stretch and silicone-free. Imported film.

ADHESIVE

Non-transferable, water based silicone free acrylic copolymer with an added anti-microbial agent to inhibit possible bacterial growth. Adhesive level minimum of 9.5 ounces per square inch with stainless steel method per PSTC-1 (Pressure Sensitive Tape Council).

BACKING

Full coverage adhesive backing for adhering to the floor for use. Double-sided backing full width adhesive coated polyethylene film. Double-sided tape strips also available.

TABBING

Each sheet consecutively numbered with permanent and non-removable tab for soiled sheet removal. Tab consist of .001" mil high density, low stretch polyethylene.

CONSTRUCTION

Each mat is created with exact dimensions as specified. All mats have square corners.

PACKAGING

30 removable, peel-off sheets, 4 mats per case, 120 sheets per case. Packaged in a 200 lb. rated corrugated box sealed with a permanent boxing adhesive. Box is die-cut with a flat interior surface to prevent wrinkling and creasing of mat during shipping. All packaging materials are incinerable using standard procedures. Other put-ups are available.

APPLICATION

For use before entering cleanrooms or controlled areas to remove foot borne particulate, including dirt, dust and other foreign debris.
